

# How to locate the GPS software

1. Click on "**Setup**" on the Console screen.
2. Once Navigation screen shows up, double-click on the folder  icon.

3. Select the "**StorageCard**" by double tapping it.
4. Double-tap "**MobileNavigator**" from the list.

5. Use ▼ to locate "**MobileNavigator.exe**" and double-tap to select. (This will bring you back to the "**Navigation setup**" screen.)
6. Return to the "**Console**" screen by tapping on the home  icon, and then tap "**Navigation**" to start-up the navigation software.
