

# SM-DVSSUPER10

## To load factory defaults:

- Turn all active recordings or playback off.
- Then go to **Settings-Tools** and click on load defaults icon, then click on “**Load Defaults**” on the pop-up window.
- Once the pop-up window disappears, click “OK” then click on “Exit” and **you must** click “Yes” to **save**. (The system will now be reset to factory settings).
- If the unit doesn't load the factory defaults reboot the unit by going to Settings-Tool-System Mng and click on “Restart” and repeat the steps above.
