

iPhone Remote Viewing Instruction

1. Application Installation

Download "zMeyePlus" from the [App Store](#) , and open the app once installed.

2. Login

- Touch the setting  button open "Device Manage".
- Touch "**Edit**" on the top right corner, and then touch "**Add**" on the top right corner.
- Key-in the following: "**Device Name**", "**Address**" (IP address/domain name), "**Port**" (3357), "**User ID**" (DVR user ID), "**Password**" (DVR password), and "**Channel NO**" (4).

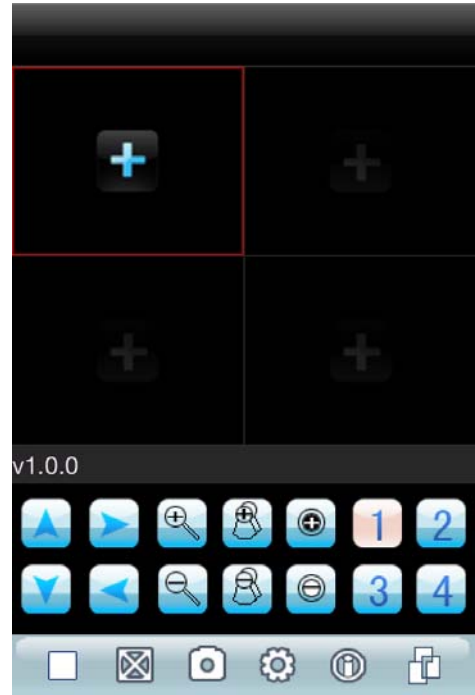

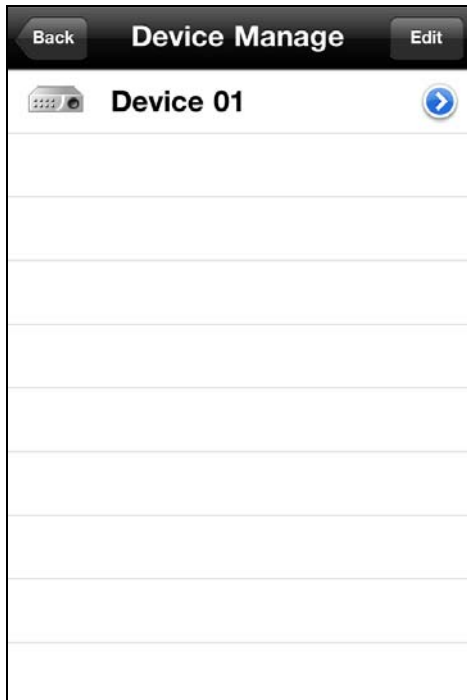

- Once all the above have been inputted; touch "**return**" on the keyboard and click "**OK**".

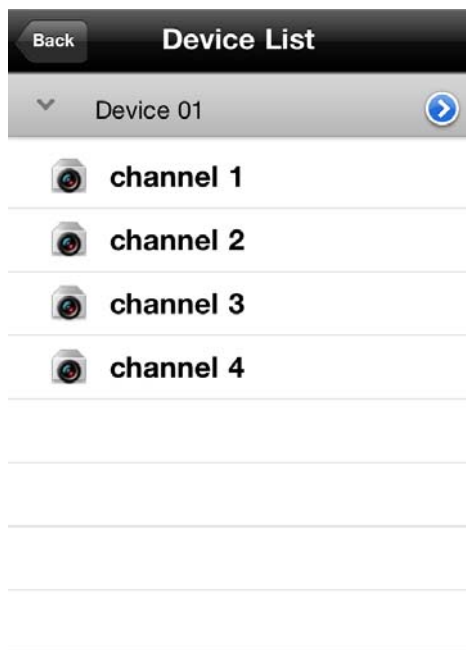

3. Viewing

- Once all the server info is inputted (you should see your device on the list), click "**Back**" on the top left corner to go the main screen.

- On the main screen touch the "+" on the desired window (Device List will show up)
- Touch your device name to open each channel (1-4) and select the desired channel to view.
- Repeat steps above to view all of your cameras on a quad view on the main screen.
- You can rotate your iPhone to landscape to fill the entire screen.
- Double tap each channel to view each channel in full screen.
